I am Bobbie S. Arrington. I have a lot of concerns because of this bankruptcy filing. I have put in 35.8 years at General Motors and I need my insurance. I am a widow and I cannot afford to paid high office visit and prescription & hospital bills. I retired thinking that I would have no worries about medical insurance but now, I don't know and I have to go to the Dr. I am a colon cancer survivor and I have to have this test every year. I have to get my eye exams, also. If this bankruptcy is going to affect this, I am against this decision.

Sincerely Yours,
